

SEA4NEB stands for Social Economy Actors for New European Bauhaus

The New European Bauhaus

The New European Bauhaus (NEB) is a creative and interdisciplinary initiative that connects the European Green Deal to our living spaces and experiences, inspired by art and culture, in harmony with nature, encouraging dialogue across cultures, genders and ages.

The project aims to **promote social economy models** to contribute to the New European Bauhaus focusing on highlighting good practices from territories regenerated according to NEB principles by or with a strong contribution of Social Economy organisations and local authorities in Latvia, Italy and Croatia.

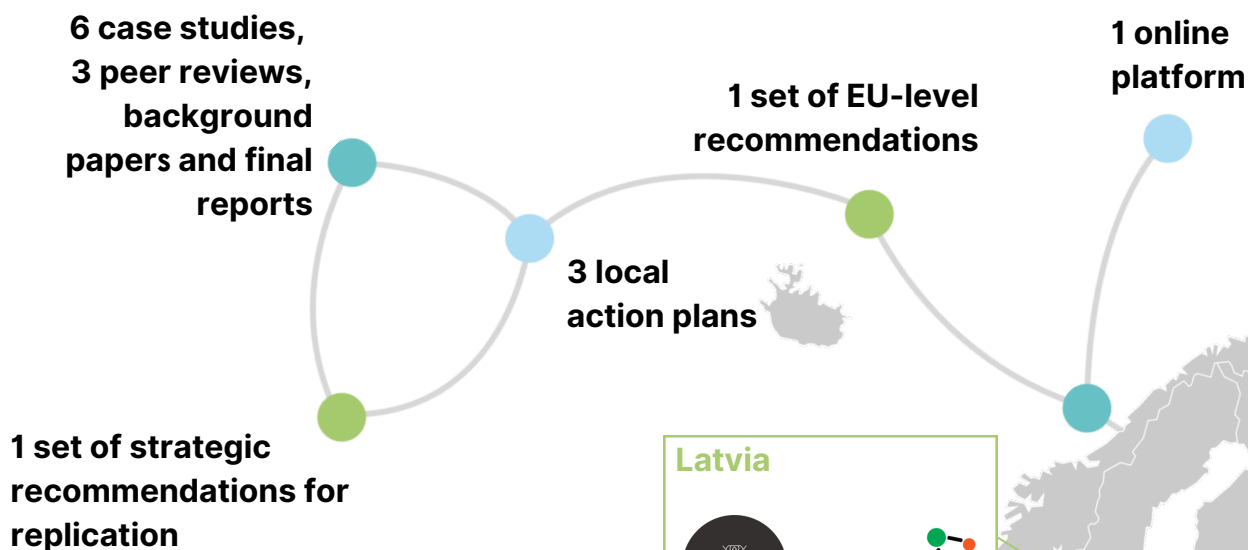

Objectives

- **Transnational cooperation** between social economy stakeholders and local authorities based on **NEB principles** - beautiful, sustainable, together;
- Boosting **peer-learning**, sharing and replicating **good practices** and success stories on **regenerative development of communities** and in enabling recovery and building resilience in territories;
- Shaping **local action plans** that see social enterprises as tools for **social inclusion and economic participation**, and strategic factors in the green, sustainable, balanced and inclusive development of territories;
- Formulating **recommendations** to foster replication of SEA NEB communities.
